Catalog J ■ April 2012

Promo/Coupons start April 26, 2012 and ends June 30, 2012

Ratermann Manufacturing Post

We are working constantly to give our customers the "Quality and Service you can depend on."

Customer Service

While many companies have turned to automated phone services, we believe you deserve the personal touch that can only be achieved by speaking with a live customer service representative. But simply answering the phone is not enough.

We also feel that the more knowledgeable our personnel are, the better they will be able to serve you. As we broaden our product lines, we continue to educate our already knowledgeable staff and feel that by doing so, we can give you better and faster service.

Outside Sales Support

We've expanded our outside sales force around the country to be more available to our customers. Our sales people bring years of experience and knowledge to help with product recommendations and working with you to implement many of the Ratermann Mfg. programs for fill plants and customer applications.

New Digital Catalog

Available now for iPad and iPhone, easily download from the Apple Bookshelf online. Our website has the links to download the catalog. Our Digital Catalog has hot links by part number from the Digital Catalog to our website. This makes for a great tool on your salespeople's devices to find and look for those products to help their customer.

New Website

Newly updated website gives access to invoice copies, past orders, MSDS sheets, and technical data sheets. The dewar parts illustrations is a fantastic tool – click on the diagram part bubble and see details of that part. Easily order the right part with a click of the mouse.

New Products

We have expanded our product line and service:

MINI BULK The Arctic Fox™ Tank is functionally and aesthetically designed and suited to serve almost any cryogenic application, from Semi-conductor fabrication to metal fabrication.

The Arctic Fox Tank has many advanced features designed in a compact attractive package. One of our salespeople would be happy to visit you and go over Arctic Fox advantages.

SHOULDER LABELS Custom print *Need it Now Program* labels can give you custom printed labels in 24 hours. For our standard run, labels offer bar coding and logos to build your brand.

SHERWOOD VALVES We are proud to be a *Master Distributor* of a valve line with a history of quality and top performance. We have stock in all of our distribution centers; with the largest available inventory to ship the same day.

VAPORIZERS We have stock from 1,200 to 15,000 SCFH. We offer great products and competitive pricing. Many in stock for fast delivery.

DEWARs Complete Family of Dewars – large inventory of 6-liter through 265-liter. We carry industrial and medical, all ready to ship.

As always, we hope that we will continue to receive your comments, feedback and suggestions, as they are vital to our continued improvement. Contact me at george@rmimfg.com.

Sincerely,

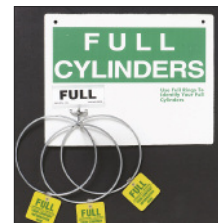

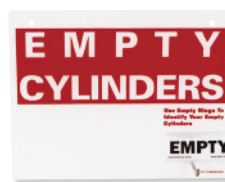

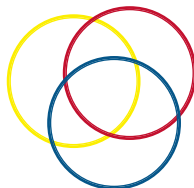

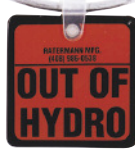

George Ratermann

Liquid Cylinder Ambient Vaporizers increase vapor withdrawal rates for any type of Cryogenic Liquid Cylinder.

Our Vaporizers can connect directly to the liquid withdrawal connection to economically boost withdrawal ratings.

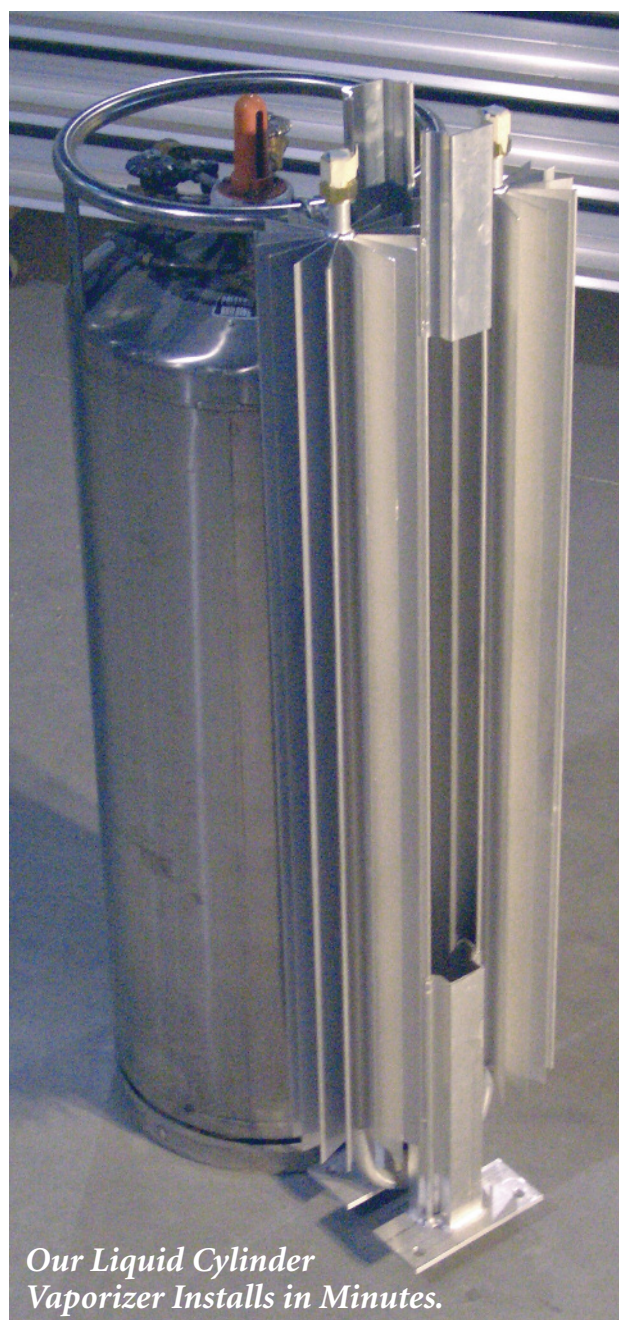

The model D8A-3M will ensure that warm gas is there for your application.

STANDARD FEATURES

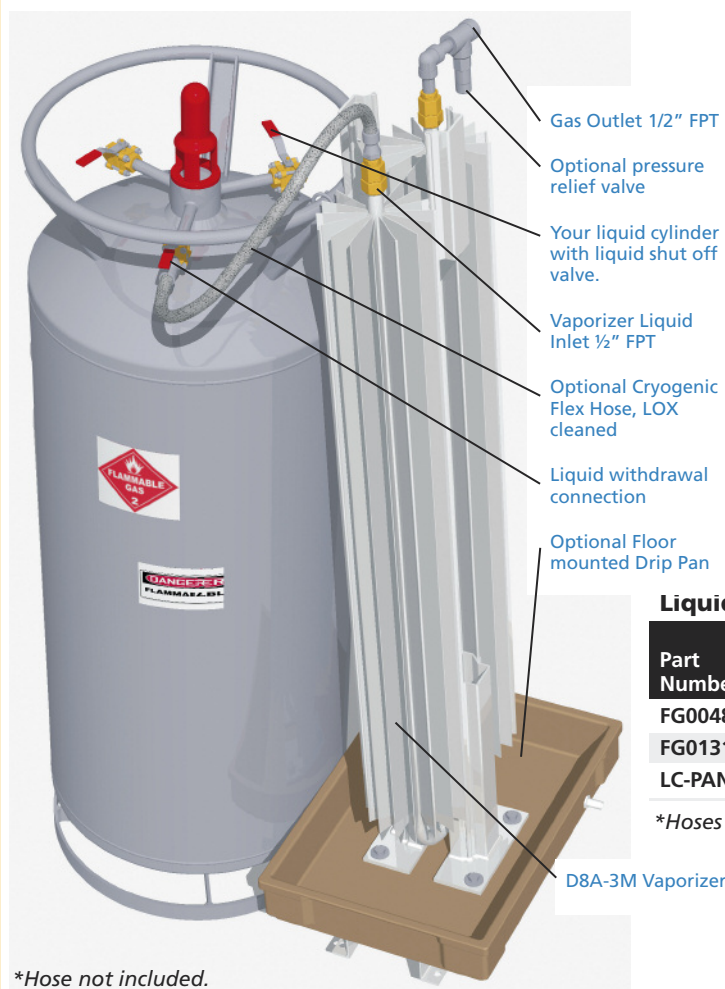

- New Megafin Model with 1200 SCFH rating for N₂, O₂, Ar (intermittent service)
- Each Unit is cleaned, sealed and tagged for Oxygen service.
- 600 PSIG MAWP standard.
- Compliant with ASME B31.3
- Carries CRN for all Canadian Provinces.
- Free Standing or hangs on your cylinder.
- Ships fully assembled, tested and ready to use.
- In stock and ready to ship

OPTIONS

- Cryogenic Flex Hose
- Floor Mounted Drip Pan
- Pre-installed relief Valve with set points from 100 to 600 PSIG
- Stainless Steel lined
- EU/PED code compliance

Our Liquid Cylinder Vaporizer Installs in Minutes.

*Hose not included.

LC-PAN2	Drip Pan					

*Hoses and Pressure Relief sold separately.

Supergap™ Ambient Vaporizers (Model TF1215-HF-SG) being installed in a hospital in North Andover, MA.

Call us to have one of our sales specialist to work with you to select the right vaporizer for your application.

OPTIONS

- Stainless steel, monel and other alloy liners
- Design pressures exceeding 15,000 psig
- Gale Force™ design for 150 MPH wind loads per ASCE 7-05
- Low inlet pressure and low pressure drop designs
- Flanged, tongue and groove, butt-weld end connections
- Tank, wall, or truck mounting
- Continuous operation with switching system
- Electropolished 316LSS internals for ultra-pure applications

 **Thermax brand**

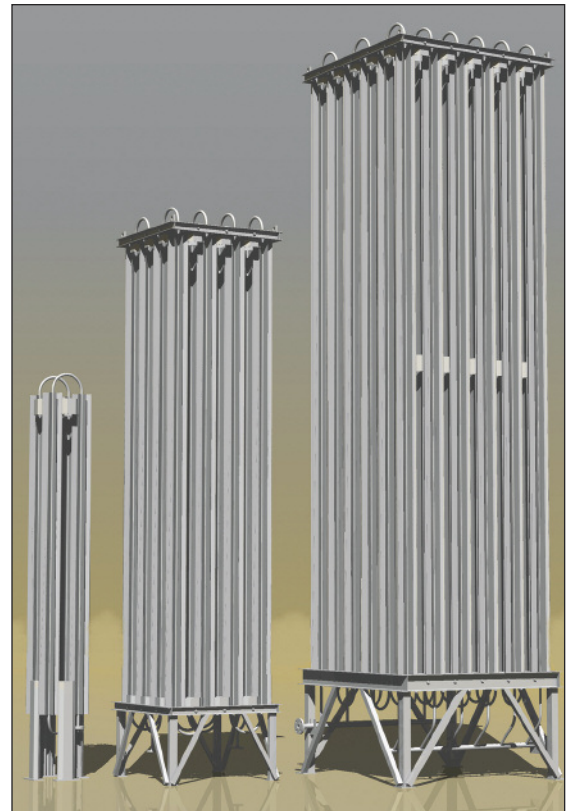

Electric Vaporizers Available – Give Us a Call.

✓ Zero Energy ✓ Zero Maintenance

Supergap™ Ambient Vaporizers have become the industry standard for ambient air vaporization. Supergap™ Vaporizers use natural convection of air to vaporize liquefied gases. Finned aluminum tubes absorb heat from the air and transfer that heat to the product gas. The huge 4 inch gap between fin tips provides room for ice growth and allows for more than 500 hours of continuous operation without defrost, making Supergaps ideal for severe climates and long duration operation. Extended operation requires a system of switching vaporizers designed by Thermax. In addition to our standard aluminum construction, units are available with stainless steel and other alloy liners for high pressure and corrosive applications.

STANDARD FEATURES

- 12 inch fin tube center to center spacing
- 4 inch gap between fins
- Standard models rated up to 200 MSCFH
- Aluminum corrosion resistant construction
- High strength welded base frame
- Withstands 100 mph winds and Zone 4 seismic forces
- 600 psig standard design pressure on all aluminum units
- Severe thermal cycling design
- Enhanced internal 16 fin heat transfer area, highest in industry
- No-crate shipping design for larger models
- Perimeter frame and legs for unrestricted airflow
- ASME B31.3, CRN (all provinces), & PED module D compliant
