### What's New at Ratermann

### AWS & FABTECH Show

Nov. 14-17, 2011

We featured the **Arctic Fox™** mini bulk tanks at the Fabtech/ AWS show in Chicago.

- You were able to see first hand why "You'll never look at a tank the same way again."
- The Arctic Fox not only outshines the competition with its highly polished mirror finish, but we've incorporated special design features that truly make the Arctic Fox the complete mini bulk solution.

**NEW! Tethered Hoses**

Use Tether to attach hoses to manifold and equipment.

**Post Sintered PTFE Lined S.S. Braided Pigtails 3,600 PSI**

Post-Sintered is a process that tightens the molecular structure of the PTFE lined hose (increasing the wall thickness from 0.030" to 0.040"). Post sintered Hoses dramatically reduces effusion of diffusion of all gases. Similar in construction of standard PTFE hoses (RMI "FP" Style) but with an extra braid of Stainless Steel for higher working Pressure.

(Oxygen hoses are cleaned, capped, bagged, & certified clean for oxygen service per CGA G-4.1.)
